PANTASTEL® Ultra Soft Artists' Painting Pastels

Professional grade, extremely fine lightfast pastel color in a cake form which is applied to almost any surface. Dry colors are essentially dustless, go on smooth as if like fluid, are easily blended for an infinite range of colors and effects, and are erasable. Apply large blocks of color quickly and build up multiple layers without overfilling the paper's tooth. Create intense or delicate marks by varying pressure with Sofft Tools. Combines well with other art and craft media. Pans thread together for stacking, or can be placed in the palette trays, for easy storage and organization. Each pan contains 9ml (0.30 fl. oz.) of color, 40% more than the average pastel stick.

GAMBLIN Dry Pigments

The same pure pigments used to make Gamblin oil colors in dry pigment format. Each color retains the unique characteristics of the pigment, including tinting strength, undertone, and texture. Make your own watercolors, acrylics, and even oil paints by mixing your own colors with the appropriate binders and mediums.
