ALVIN® Professional Self-Healing Cutting Mats

Professional quality for all kinds of graphic arts, hobby, craft, shop, and industrial applications, these self-healing and reversible cutting mats are 3mm thick and extra durable. Made from unique composite vinyl material designed for both rotary blades and straight utility blades, they provide a long-lasting, non-glare, surface that can be cut and slashed constantly without showing marks or cutting lines. Can also be used as a desk blotter or general-purpose work mat. Printed grid pattern includes guide lines for 45° and 60° angles and 1/2" grid lines. Find the perfect center on any project with zero centering lines. All four edges are fully numbered and graduated with 1/8" hash marks that extend beyond the zero base line for convenience. Mat sizes 24" x 36" and above include internal horizontal and vertical graduated hash marks. Non-stick surface is impervious to abrasions and liquid spills.

GBM Series

Green on one side, black on the other, and both sides gridded.

ROTATRIM® has earned an international reputation for the highest standards of quality, design, and manufacturing. These award winning, British-made trimmers are durable, versatile, precise, and safe. Using only the finest materials, including Sheffield tungsten steel in its blades, ensures that every RotaTrim trimmer will provide a lifetime of service, backed up by an outstanding five-year warranty. Alvin & Company is a proud distributor of RotaTrim trimmers and is firmly committed to the service and technical support of every RotaTrim sold. Alvin stocks an extensive range of spare parts and our factory-trained technicians are available to assist with product selection, trouble-shooting, and repairs.

ROTATRIM® S10 T Monorail Series Light-Duty Trimmers

Rotatrim's intelligent features and reputable quality condensed into an economical version. Suited for light-duty classroom and office work.

- 3/4" square chromed steel rail with virtually unbreakable head and end frames
- Self-sharpening tungsten steel cutting wheel cuts in one direction only (MRT18 and above, MRT13 cuts in both directions)
- Gray, wipe-clean MDF gridded baseboard is 7/8" thick x 12" wide
- Transparent clamp strip allows accurate placement of work and holds material firmly in place

MRT26

- Aluminum side rule calibrated in inch and metric
- Adjustable cursor for precision repeat cutting
- Overload plate ensures that trimmer cannot be overloaded

THICKNESS REFERENCE FOR ROTATRIM® TRIMMERS

LIGHT-DUTY	Combined thickness up to .07" (2mm)
MEDIUM-DUTY	.06" (1.5mm) up to .1" (3mm)
HEAVY-DUTY	up to .15" (4mm)

Actual results may vary depending on material density and hardness. Please use these figures for reference only.

"Scratch and Dent" trimmers, new and never used, are often available. We may also have replacement parts for older models. Please inquire.

ROTATRIM® PRODUCT WARRANTY

All Rotatrim trimmers are warranted against faulty workmanship and materials for a period of five years, depending on the model. This warranty does not cover cutting blades, clamp strips, or other plastic and rubber parts that are subject to normal wear and tear. Damages due to improper use, handling, or storage will void this warranty. Please save the original shipping carton.

ROTATRIM® S10 Professional M Series Medium-Duty Trimmers

Engineered for performance, trouble-free maintenance, and long-lasting service. Ideal for art studios, drafting rooms, darkrooms, and workshops.

- Self-sharpening tungsten steel cutting wheel and flat counter blade
- Cast metal cutting head and end supports and twin 3/4" diameter chromed steel guide bars completely resistant to cutting head swivel
- Gray, wipe-clean Melamine baseboard, 7/8" thick x 12" wide
- Printed grid, inch and metric, with 1/4" grid lines
- Transparent clamp strip allows accurate placement and holds material firmly
- Aluminum side rule calibrated in inch and metric with adjustable cursor for repeat cuts
- Cuts in both directions, an overload plate on models M24T through M54T can be removed for bi-directional cutting of thin materials
- Floor stand and other accessories available

T1250

ROTATRIM® S07 Technical Series Heavy-Duty Trimmers

For cutting extra-thick, extra-dense materials, these industrial strength trimmers are equally at home cutting thin films and tissue paper. Features unrivaled accuracy for cutting in its class.

- Long-lasting, self-sharpening tungsten steel cutting wheel and flat counter blade
- Cast metal cutting head, end supports, and 1½" square chromed steel guide bar are extremely resistant to cutting head swivel
- Aluminum clamping bar with automatic release
- Three pressure rollers and rugged gripper for secure clamping
- 11" wide extruded aluminum baseboard
- Cuts in both directions, an overload plate can be removed for bi-directional cutting of thin materials
- Factory set side rule ensures accurate 90° cuts
- Pull handle mounts to top of cutting head
- Floor stand and other accessories available

ROTATRIM® S06 Stand and Catcher

Ensures a stable and comfortable work platform for the trimmer. All stands incorporate a space saving translucent waste catcher. The M Series stand can be quickly and easily removed and replaced, for use elsewhere or for storage. Stands are machine size dependent, however the same stand will fit all DT, T, and FT models.

ROTATRIM® S06 Replacement Head Assembly

Each complete replacement head assembly is specific for each trimmer series, includes blade and all internal cutting head components. DT-HEAD, PT152, and T100A are not pictured.

S100

FT-HEAD

ROTATRIM® S06 Complete Cutting Head

Complete cutting head for MRT series trimmers. Be sure to order correct size for the model.

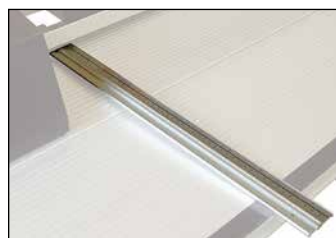

MCHDWP

MCHDNP

ROTATRIM® S06 Aluminum Rule Extension

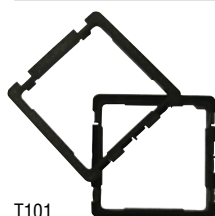

Replaces standard rule and is available in either a 24" or 36" length, cursor is included with the rule.

TX24, TX36

ROTATRIM® S06 Head Gaskets

Set of two head gaskets for DT/FT/PT/T trimmers.

T101

ROTATRIM® S06 Rotary Blade Assembly

All M series trimmers have a replacement blade kit, which includes the blade assembly, spring, and bushes (MT-BLADE). All DT/PT/T (Not FT) series trimmers have replacement blade only (T106A).

MT-BLADE

T106A

ROTATRIM® S06 Adjustable Cursor

Attaches to the rule and locks in place to greatly reduce the time of same size repetitive cutting.

**LIGHT
DUTY**

NEOLT® S07 Trim Series Light-Duty Trimmers

This series is ideal for trimming single sheet drawings, posters, photographs, and laminations up to 0.014" combined thickness. Self-sharpening hardened steel cutting wheel cuts in both directions. Cutting head glides on smooth-running roller bearings. Top-mounted swivel handle ensures operator comfort. Cutting head can be raised or lowered from any position on the bar. Open end shoulder design enables cutting of material that is longer than the trimmer itself. Transparent, adjustable clamp strip lifts automatically when cutting head reaches either end. Metal baseboard with rule tapes in inch and metric. Available as tabletop trimmer or with a sturdy steel stand and waste catcher. Optional roll holder is available. The Trim series is not designed to cut mat or foam board.
