DYNASTY® S15 Faux Squirrel Synthetic Watercolor Brushes

Bristles are made of a techno-synthetic that is designed to replicate the painting qualities of natural squirrel hair. It holds as much color as a natural squirrel brush, allowing for an even flow of paint. Unlike its natural counterpart, this brush will continue to hold its shape and will show far less wear over time. Its kiln dried innovative soft coating wood handle allows for a sure grip through hours of painting. Short handle brushes for painting with watercolors.

DYNASTY® UrbanFX Synthetic and Bristle Urban Art Brushes

All brushes feature brightly colored handles coated with a soft touch, non-slip lacquer.

Bristle works best for painting mural, concrete, and brick. Densely packed ferrules allow a continuous flow with a tremendous amount of paint, creating a smooth flow over the rough surfaces and a good fill between the cracks.

Synthetic works best over smooth surfaces such as metal, dry wall, and tile. Unique brush shapes/profiles to tempt any artist into reaching new heights of creativity.

**DYNASTY® \$15**
Faux Kolinsky Synthetic Watercolor Brushes

Go faux! This short handle brush will last longer, cost less, and perform with finer precision and responsiveness than natural Kolinsky brushes. Constructed with traditional black alabaster handles for balance and seamless double crimped nickel ferrules. Innovative blend of technosynthetic material with a large reservoir. These brushes have precision, snap, and responsiveness, but are cruelty-free. Series 1114.

\$19 PRINCETON™ Good White Synthetic Hair Watercolor and Acrylic Brush Display Assortment

Size: 17½" w x 28¼" h x 12¾" d
Contents: 180 assorted short handle brushes

No. 6550D ★
SRP \$1,092.60

Items with ★ are shipped from manufacturer.

Basic Brush Shapes

To assist in brush selection, the following is a brief description of how each brush is used and a sample brush stroke.

Note: Short handle brushes are generally used for watercolor painting and long handle brushes for oil/acrylic painting.

Angular shader –
A versatile brush used to paint both sharply defined edges and contrasting softly shaded areas like foliage.

Bright – Similar to Flat, but with shorter stubbier bristles to provide more control for details. Produces short, crisp paint strokes.

Fan – For blending and softening the edges of other strokes. Dry brushing to create special effects like grass, trees, hair, and shrubbery.

Filbert – For edges and areas requiring tight control. Gives a rounded look to a flat stroke.

Flat – For broad, sweeping strokes, for laying in large areas of color like the sky.

Flat shader –
For blending and large, even strokes. Holds a lot of color. Creates crisp clean edges.

Hake – Oriental-style wash brush on a long flat handle. It is useful for laying in large areas of water or color, for wetting the surface and for absorbing excess paint.

Liner – Extra-long hairs, a short handle and round ferrule. Carries lots of color. Creates consistent thick to thin lines for delicate lettering, outlining, and long continuous strokes. Use for tree branches, vines, and foliage.

Mop – Round, full version of the wash brush, made of soft, absorbent natural hair. Useful for laying in large areas of water or color, for wetting the surface, and for absorbing excess media.

Round – An all purpose brush for fine detail and outlining, thick to thin lines, calligraphy.

Stroke – Flat ferrule, square-ended medium to long length hairs. Short handles. Carries lots of color. Great for painting block letters in one stroke. Use for lettering, blending, and glazing.

Wash – For broad strokes and blending. Apply washes of color or finishes.

**\$19****NEW**
**PRINCETON™
Heritage
Professional
4-Piece Set**

More than 20
years ago, this was
Princeton's first
synthetic sable to be
offered to artists. A
perfect blend of golden taklon in multiple
diameters, developed for Princeton by
master Japanese brush-maker Naohide
Takamoto, the "Tak" in "taklon." This
brush drinks up gulps of water, paints
supple strokes and has a natural snap. Set
contains: round 3/0, 3, 10, and wash 3/4".

No. 4050SET200
SRP \$60.90 st

**\$19****NEW**
**PRINCETON™
Elite
Professional
4-Piece Set**

New synthetic-
hair paint brush
that is almost
indistinguishable from natural Kolinsky.
Holds more paint and evenly releases
color. Excellent for watercolor. Set
contains: round 2, 8, angle shader 1/2" and
wash 3/4".

No. 4850SET400
SRP \$79.95 st

**\$19****NEW**
**PRINCETON™
Professional Set
Assortment**

Collection of five top selling
Princeton Professional brush
lines: including a few Next-Gen
series. These four-piece sets are
assembled with brush shapes
and sizes that are convenient
for artists. Contains two each of
items 3950SET100, 4050SET200,
4750SET300, 4850SET400,
6300SET500.

**\$19****NEW**
**PRINCETON™
Neptune
Professional
4-Piece Set**

When Princeton
set out to create a
synthetic version
of squirrel, they
developed a brush that may actually
outperform the natural version. This is a
soft and thirsty synthetic brush, delivering
oceans of color. Comes in a beautiful
range of shapes including mottlers and
quills with rich wood tones and sea glass
aquarelle handles. Set contains: Aquarelle
3/4", round 4, 12, and oval wash 1/2".

No. 4750SET300
SRP \$79.99 st

**\$19****NEW**
**PRINCETON™
Dakota
Professional
4-Piece Set**

A better, longer lasting
bristle brush that
performs better than
natural bristle across a
broad range of media.
Won't go limp even in
water! Modeled on the
look and feel of hog
bristle, it's a perfect
brush for painters
switching from oils to acrylic or water
miscible oil. A real workhorse in even
heavy bodied acrylics and suitable for use
with gels and impasto media. Wears much
better than natural bristle. Set contains:
bright 6, flat 10, filbert 4 and round 2.

PRINCETON™ **S19** Catalyst™ Silicone Tools

Crafted from flexible silicone for expressive application. Wedges and contours are shaped to fit comfortably in the hand for direct interaction with work. Blades are mounted to artist brush handles, but can be removed for easy cleaning. Designed for heavy-body acrylics and mediums, but can also work with oils, acrylics, water miscible oils, plaster, clay, and even frosting. Heat-resistant for encaustic work as well. Easy to wipe clean and solvent resistant. FDA-approved silicone.

PRINCETON™ **S19** Catalyst™ Polytip Bristle Brushes

First synthetic filament of its kind! Filaments have split tips (flags) that hold more paint than any other synthetic brush. The flags lay down paint differently, hold their shape, and last a long time. Super stiff, extremely responsive, flexible silicone synthetic bristles are designed for heavy-body acrylics and mediums, but can also work with other mediums such as oils, acrylics, water miscible oils, plaster, clay, and even frosting. Heat-resistant for encaustic work as well. Easy to wipe clean and solvent resistant.

ROYAL & LANGNICKEL® **\$19** Best Vienna Synthetic Bristle Acrylic and Oil Brushes

Made in the tradition of an old world bristle brush with a modern twist by utilizing only the best quality synthetic bristle filaments that taper with the natural curve of an interlocking natural bristle. These extremely durable and strong synthetic bristles brushes are excellent for heavy body acrylics, oils, caseins, and water-soluble oils, and are ideal for moving large amounts of color in bold strokes, or for working with thickening mediums. Brushes maintain shape and stiffness, particularly in water. Features copper-plated brass ferrules and SilkTouch handles.

**\$06****THE MASTERS®**
Brush Cleaners

Keep brushes like new with this lemon-scented cleaner and preserver. Even old, hardened, oil paint brushes may be restored to their original snap and luster. Non-toxic water-soluble cleaning compound works safely on oils, acrylics, or watercolors. Rinse brush under warm water, swirl it in the cleaner until a lather forms, then rinse. Repeat if necessary until brush is clean. No harmful fumes or odors.

S10
WEBER®
Turpenoid® Light

Mild solvent with no harmful aromas and a very high (200°F/93°C) flashpoint, making it safer for studios and classrooms. Use it for thinning oil colors and modifying oil mediums. Offering very slow and complete evaporation, it allows for more open time when combined with other mediums. It's also great for cleaning brushes, painting knives, palettes, and other tools and accessories.

S10
WEBER®
Turpenoid Natural®

An extremely effective non-toxic brush cleaner and gentle brush conditioner, which rinses out with plain water. Brushes are reconditioned when cleaned with Turpenoid Natural. It is non-flammable, does not irritate skin or eyes and does not emit harmful vapors. It is an effective painting medium when used within recommended guidelines. Not recommended with Damar varnish or crystals.

WEBER®
Odorless Turpenoid®

An odorless, colorless, very volatile, thin turpentine substitute. Turpenoid has the same painting properties and drying time as turpentine but is free of the strong characteristic turpentine odor. Compatible with oil colors as a painting vehicle, either alone or in mediums. Also excellent as a solvent or paintbrush cleaner, and for use in removing paint spots from clothing.
