Balsa Wood

Selected Triple A Grade balsa wood blocks, sheets, and strips cut to very close tolerances. Sizes listed are for 3/4" scale models. Use for any type of model building, especially aircraft, architectural, or engineering models. Balsa wood is light and soft but very strong. Can be easily cut and shaped with hand tools, sanding blocks, and X-Acto-style blades. Lightly sanding the wood produces a smooth, velvety feel. Finishes easily with standard water-based paints or varnishes. Excellent for home, classroom, or office use. Individually bar-coded.

Basswood

Selected basswood strips cut to very close tolerances. Sizes listed are for 3/4" scale models. Very soft wood with wonderful carving characteristics. Basswood allows for intricate designs because it's strong enough to hold its shape. Use for architectural or engineering models. Easy to cut and shape with both hand or machine tools. Glues well. Finishes easily with latex paints or polyurethane. Excellent for home, classroom, or office use.
